## MISS MIKELSKY BACK FROM FLORIDA TRIP WILL GIVE A TALK

## Visits Many Interesting Spots and Brings Home Souvenirs

Miss Sophie Mikelsky has returned from a most interesting trip to the South where she visited friends in Jacksonville, Fla., Atlanta, Ga., and Fort Worth, Texas.

In Jacksonville Miss Mikelsky saw the famous Stone Mountain which is the largest pile of granite in the world. It rise a mile straight into the air and is three miles long. She also saw the circular stone structure in which a noted artist immortalized the battle of Atlanta, one of the bloodiest struggles of the Civil war. A huge painting goes entirely around the inside of the building and to make the scenes more realistic the bottom of the painting is banked with earth which is strewn with actual battle paraphernalia. There is nothing in the building but this enermous picture which makes the spectator imagine that he is gazing upon a real scene of warfare, and seeing the actual carnage of battle.

building but this enermous picture which makes the spectator imagine that he is gazing upon a real scene of warfare, and seeing the actual carnage of battle.

Miss Ida Feldman who recently returned from doing Jewish welfare work in France accompanied Miss Mikelsky from New York South. They went in bathing at the largest beach in the world, Pabulo Beach in Jacksonville.

After having sean all that there was to see in that city the two women went.

After having seen all that there was to see in that city the two women went to Fort Worth, Texas where Miss Mikelsky saw her three brothers, Lee, Ora and Michael who are operating oil wells in Ranger and Desdemonia, Texas. She says that it was a wonderful sight to see the oil geysers spouting their precious fluid high into the sir, and that men are making fortunes and losing them over night in this Eldorado of the South.

Her brothers are enjoying every minute of their lives in Texas and have been most successful. They have only been there a few years but already fortune is smiling on them and they are recognized as authorities in the oil industry.

Miss Mikelsky has most kindly volunteered to tell the girls of the Cosmopolitan club of her trip and will address them on the night of Nov. 5. At that time she will have a series of postcards and photographs with which to illustrate her talk. Several of these will soon be on exhibition in the window of the Times Co.
