

COMMERCIAL MARKET ENTERED AND ROBBED

The Commercial Market at 147 Front street was entered between closing Thursday night and opening Friday morning and \$9.55 removed from the two cash registers. Of this amount three dollars were in bills and the remainder in small change. The loss was discovered by William Harmon who was the first to arrive at the store Friday. Upon discovering both registers empty he reported the loss to his employers, Morris Petlock and Morris Cohen, and by them the break was reported to the police. The break was made through a rear window. There was an inside bar across the shutters. By opening the window it was possible to push a knife through the slits between the two shutters and push up the bar from its sockets. Mr. Cohen said he was unable to tell just how much of his stock was removed.
