FROM THE EDITORS . . .

Dear Campers,

As the summer draws to a close we recall all the good times we have had this season.

The general everyday program which was planned so carefully as to be long remembered. We think of the interesting cultural program and the amount of knowledge we have gained. We remember all the evening activities such as camp fires, movies, plays, the vaudville show, the C. I. T show, and the Counselor show.

The Maccabiah which taught us so much about good sportsmanship, and the idea of two nations competing in a friendly manner is something which no one will forget.

We also remember how wonderful you campers were in giving us your cooperation in helping us make Kadimah a successful paper.

In closing we want to thank you campers for all this help.

Have a wonderful winter and we hope to see you back here next season.

Life with the 4th Waiters

Being the half (actually 55/100) and having the most free time (off from eight to eight), I've been delegated to write a brief account of our eight weeks in camp.

Is it difficult to select an outstanding waiter, girls? Of course not. To bunks 2, 3, 4, and 5, he is known as "Daddy". To Ray, Helen, and the rest of us, he's "Headwaiter", "Artist", and "Handsome" (and a few other unprintable names). Eight summers of camping at Lown have really brought forth some great waiters, but Jack in his three seasons of waiting has proved himself as one of the greatest (at attracting the opposite sex, that is).

At different times this summer you may have noticed our hotel rocking to and fro. This, although giving our bunk the appearance of the Leaning Tower of Pisa, is merely our boy, Bill, turning over in bed. As a result of this, the building got so darn shaky that we had to tie him down with a rope. Bill is our earliest to bed and earliest to rise and, as all you campers will agree, one of our speediest waiters.

You may have noticed four wheels (along with removable fenders, radiator, motor??, hood, and cigarette lighter) standing near our Camp Lown gate. Officially, this contraption belongs to the Berger boys, Ham and Chese. but unofficially our man with the sweet-scented shaving lotion is the owner, operator, mechanic, and chief usher (up the hill). All the counselors are greatly indebted to Ben for his lamp and bookcase built for the lounge. Jack has the artistic ability, but Bonnie undoubtedly has outstanding constructive ability. Now all we need, Ben, is a new waiters' bunk.

In every bunk there is usually a quiet man. We do not have one, but our closest

(CONTINUED)

very close substitution is the "student". Reading, writing, and arithmetic????
NO. Swimming, sleeping and waiting??? Definitely yes. When seeing your
favorite movies this winter think of Rex, Tinty, and Dave,

Then there is the boy who supposedly has no worries, has no fears,
never makes his bed, (let alone get out of it), and never sweeps the bunk.
But I deny all this. I swept the bunk twice this ^{summer} ~~year~~.

Speaking for all of us it has really been a pleasure waiting this
summer, and we hope you enjoyed your waiting too. Here's to many more seconds,
thirds, and fourths, but bayakosha haaver es hatslachos (please pass those
dishes)

PARENT'S LETTER

Yes, Camp Lorn has come into its own! For eight years, I have watched
it with an intimate interest. I have seen it evolve from a babe in arms,
through tottering infancy, through a precocious adolescence and finally
to what it is today---a highly specialized Jewish camp that caters not only
to the physical needs of its campers, but also to their spiritual and
cultural needs as Jews.

From the camp have emerged good swimmers, proficient tennis players,
good pitchers -- the usual results in any camp after eight full weeks of
summer fun. But what does the good swimmer, the tennis player, and the
pitcher take home with him besides his athletic ability?

Here is where Camp Lorn is unique! He has come home a Jew! For
eight weeks he has been imbued with Jewish life, Jewish culture, Jewish tradition.
So pleasantly is it taught, and so graciously is it lived, that he
accepts it with understanding and with pride.

Just a few years ago, a day or two after my daughter had returned
from Camp Lorn, I heard the familiar melody of the "Hora" being sung in the
street and I curiously looked out the window to see where it was coming
from. Imagine how thrilled I was to see a group of gentile girls, my
daughter in the middle, dancing the "Hora" and singing the Hebrew words
with such intensity, that one would think they were a group of children
from an Israeli Kibbutz. My daughter had taught them-- she was proud of
what she had learned.

Yes, my interest in Camp Lorn has been very intimate. I have a daughter
who grew up with the camp and I have good friends whose children also share
this experience. And so gratifying have been the results that each year
we send them back to grow a little more with Camp Lorn.

Mrs. Louis Green

OH YOU CAMPERS!

 With notes so sweet
 (Like a nasty goat's bleat)

 With a baseball a whiz
