EDITORIAL

This is the first issue of the Kadima. Last year's newspaper was very successful, but this year we are going to try to make it even more successful. The paper will be published approximately once a week. It will include not only camp news but news concerning this country and the world. It will also carry special features. It will be written entirely by the campers and under the supervision of Helen, Frances, and Ursula. If your name should appear in the gossip column, don't get angry at the paper, because it is done only in fun. We are eager to know whether you have any suggestions for improving your paper. Remember this is your paper, and we want you to enjoy it.

Bert Schwartz

CAMP COUNCIL

BERT SCHWARTZ ELECTED PRESIDENT OF CAMP COUNCIL
RUTH JACOBSON MADE VICE-PRESIDENT

Tuesday was a big day in Camp Lown; it was election day for the president and vice-president of our Camp Council. Four candidates were chosen by the Council to run: two girls for vice-president, Ruth Jacobson and Audrey Saperstein, and two boys for president, Bert Schwartz. All four candidates put up signs in the mess hall. Some passed out comic books and candy. One candidate used a car covered with signs and ribbons for his campaign. The candidates and their campaign managers, who were Phil Weiner and Carol Plavin for Bert, Sandy Podolsky for Herbie, Rhona Vinegar for Audrey, and Estelle Jacobson for Ruthie, all gave speeches before the voting took place. Bert and Ruthie were the successful candidates. Herbie and Audrie will, however, continue to serve on the Council.

The complete council is made up of two campers from each bunk: Estelle Jacobson and Lois Daniels, Bunk 1; Ruth Jacobson and Susan Weissberg, Bunk 2; Donna Levine and Audrey Saperstein, Bunk 3; Zeta Levine and Rachel Cutler, Bunk 4; Betsy Wollman and Renee Shapiro, Bunk 5; Billie Lee Finberg and Paula Berkley, Bunk 6; Beverly Potter and Suzanne Lempert, Bunk 7; Phil Koven and Jerry Goldberg, Bunk 9; Dave Lubell and Teddy Casher, Bunk 10; Bernard Cope and Herbie Cohen, Bunk 11; Nate Berkley and Mark Kapiloff, Bunk 12; Merton Robinson and Bert Schwartz, Bunk 13.

The part that the Council plays in camp life is an important one. Through it campers are able to bring their suggestions or grievances to the attention of the staff. The Council also suggests programs. In general it is the voice of the campers.

The editor-in-chief of the Kadima, together with the associate editors, will be announced in the second issue of the paper.

WORLD NEWS

President Truman said at the conference for the Advancement of Colored People that there is no justifiable reason for the discrimination because of ancestry, religion, race, or color. He also said we should have a strong defense on Civil Rights.

Ting Mo-anua, chief of Secret Police during the wartime Jap puppet regime, was executed by a firing squad before day last for treason. The Supreme Court denied Ting's appeal from the Man-king high court's sentence of last February. Ting was convicted for being responsible for the slaying of underground operators during the war.

Arthur Wolman

CAMP NEWS

THE WEEK IN REVIEW

- June 29-Campers went down to the "Rec" Hall & meet staff.
- June 30-"In the Bunk Night", Each bunk chose its name.
- July 1-Campers went down to Rec Hall for Bunk Night. Each bunk put on a small skit.
- July 2-Juniors went to Rec Hall for dances, while seniors and intermediates went to the Barn for a barn dance.
- July 3-Campers went to campfire held at the fireplace below the mess hall, then to the beach to see fireworks.
- July 4-Sabbath services.
- July 5-Havdole services. Seniors had social dance.
- July 6-Evening program canceled due to rain.
- July 7-Independence Day Masquerade.
- July 8-Campaign and election day for president and vice-president of Camp Council.
- July 9-Kerin Ami treasure hunt.

Mark Kapiloff

NAAMES OF BUNKS

- Bunk 1-Berivim-one of the new colonies in Palestine, daring and adventurous.
 - Bunk 2-Ten Little Indians-10 in the bunk.
 - Bunk 3-Snow White & the Seven Dwarfs--each bunk member represents a dwarf.
 - Bunk 4-Sinos Yam-mermaids, Love to Swim.
 - Bunk 5-Fiboutz Esther-they identify themselves with the great women in Jewish history.
 - Bunk 6-Biryia-new settlement in Palestine that has been rebuilt time and time again after the British have destroyed it.
 - Bunk 7-E'Tonton-the smallest.
 - Bunk 9-Hogana Moles-an underground group in Palestine; moles because of the young members of the group.
 - Bunk 10-Canite-a very prosperous colony in Palestine.
 - Bunk 11-
 - Bunk 12-Negava-this group is helping the Jews regain Palestine.
 - Bunk 13-Seven Wise Men of Hellem of the Seven Wise Guys.
- Dick Stearns

INDEPENDENCE DAY PROGRAM

As the program opened we had group singing led by Joel. Jerry Goldberg, from Bunk 9, played a piano solo, "Oh Susanna." Linda Lavin, after a little coaching,, led us in "Linda." Tola directed the Youth Band, consisting of the juniors, which played and sang the music for the play. Between each act we saw several different costumes. The three best costumes were, first, Marvin Karp's General Lafayette; second, three pirates, by Herb Cohen, Michael Ross, and Sidney Unobsky; third, a firecracker as presented by Sandra Shae. The play-an historical play-was successfully directed by Hy Sky.

Judy Miller

CAMP SPORTS

SWIMMING

June 30 was the big day for all the kids. Quite a few passed their swimming tests. The ones who passed were: Adele Fingerg, Elaine Goldman, Frances Weisberg, Lella Stein, Lois Daniels, Estelle Jacobson, Sandra Lasritz, Trina Lee Goldman, Sandra Shea, Donna Levine, Sarah Stein, Nubith Fish, Rachael Butler, Zeta Levine, Sidney Unobskey, Herb Cohen, Jack Goldman, Nat Berkeley, Phil Weiner, Bert Schwartz, Mert Robinson, Linda Gotlieb, Judy Miller, Daniel Miller. Since that day other campers have passed their tests.

David Weisberg

TENNIS

Tennis in our camp is progressing nicely. "Whitey," who is our instructor, is teaching the pupils the correct position for hitting the ball and all the other fundamentals of tennis. The tennis games will soon start. The courts are being covered with red turpote. As soon as the courts are completed, we'll have our games.

Danny Miller

BADMINTON

Badminton for boys has not yet begun. Whitey is going to start very soon. The girls have been playing regularly, and they are getting along very well.

Danny Miller

SOFTBALL

Camp Lown has not as yet had any softball games but has prospects to play Camp Manito. Ball playing is not allowed on the campus, but we may use the athletic field for this sport.

Merton Robinson

BASKETBALL

Camp Lown basketball is well underway. On Thursday of last week Bunk 12 and Bunk 13 met in the first official game of the camp season. Both teams played well, but there is still room for improvement. Bunk 13 won the game 34 to 11.

There has been considerable practice in the barn. Already improvement has been shown by the campers. We do expect to do much better under the watchful eye and good coaching of Julian White.

On July 8 the waiters beat Bunk 13 with the score of 42 to 11. The winning team consisted of Buzzy, Marty L., Marty P., Mickey, and Gil.

Phil Weiner

NATIONAL SPORTS

The standings as of July 8

	American League		GB.
	W.	L.	
New York	47	26	*
Detroit	37	32	3
Boston	38	33	8
Philad.	36	36	10½
Clevel.	31	32	11
Chicago	35	39	12½
Washing.	30	38	14½
St. Louis	25	43	19½

National League

Brooklyn	42	31	
Boston	40	31	1
New York	38	30	1½
St. Louis	37	35	4½
Chicago	36	36	5½
Cincian.	37	38	6
Philad.	30	44	12½
Pittsp.	28	43	13

On July 8 the American League beat the NL 2 to 1 (All Star Game)

"THE SECRET OF INVENTION Z"

Chapter 1 "The Figure at the Window"

"Doctor Michael?" said the voice. "Yes," was the reply. "This is Joe. Now listen closely since I haven't much time. The secret of your successful experiment has leaked out. A chap by the name of S Smith Marsset and his mobsters are out to get the secrets. They're really desperate characters. They plan to sell the secrets to the nation that bids the most for 'em. Contact the F.B.I. One of the gang's hideouts is at . . ."

The phone went dead. Dr. Michael spoke frantically into the receiver. There was no reply. He then replaced the receiver and turned around. He was in a large room in a very large house. The house was secluded in a desolate area, 20 miles from the city limits. In the room were five members of the cream of the crop of American scientists.

Surrounding the men was an amazing quantity of scientific machinery and equipment. Practically all of the instruments and chemicals known to man were crammed into that laboratory. A few of the scientists were a bit on the eccentric side. Perhaps this will explain the strange fact that there wasn't a guard on the premises of a house that contained the secret of Invention Z--or, in plain language--the defense against the atomic bomb.

Dr. Michael quickly told his five fellow scientists of the abbreviated telephone call. There was a sudden murmur of excitement.

"There! I warned you, but you wouldn't listen!" cried Dr. Phels, a middle-aged scientist who specialized in mechanics.

"Call the F.B.I." said another.

"That's just what I'm going to do," said Dr. Michael, and he picked up the phone.

"Now, there isn't any need for that at all," snapped Dr. Otis; he was a strange man but a brilliant scientist. "These criminals, if they really exist, can't possibly know where we are, so you see there isn't any need to have the F.B.I. buzzing around here."

This was met by another murmur of excitement among the scientists.

"Now listen," said Dr. Michael angrily, "I am not going to endanger this valuable secret any longer. There isn't one foreign nation that wouldn't give a king's ransom for the blueprints and the data of Invention Z. I'm calling the F.B.I. right now."

He dialed the number while Dr. Otis grumbled angrily.

"We'll send a couple of men right over," said the G-man who answered the phone. "They'll be up to your place in half an hour."

The scientists then turned back to their work. Twenty minutes of heated discussion and working on the almost finished Invention Z passed.

Five minutes later a lithe figure began moving through the tall grass outside the house. Inside a machine started; the sound grew louder and louder. Moving slowly but surely the figure crawled toward the open window. He drew himself silently to the window sill of the laboratory. The scientists busied themselves with the machines inside the house. The man pulled a round object out of his pocket; he bent over to read the label on it.

"Knock-out Gas Bomb. Effect Immediate. Handle with Care." He smiled grimly as he read this. He drew back the bomb in his hand and set himself for the throw through the open window.

(To be continued)
